SUMMARY

Full-Stack Developer with over 2 years of experience building web applications using React, Next.js, Vue.js, Angular, Laravel, Java Spring Boot, and Node.js. Proficient in TypeScript, PHP, MySQL, MongoDB, and Docker. Demonstrated ability to deliver scalable front-end and back-end solutions in dynamic environments.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Laravel · Vue.js · Angular · Spring Boot

April 2025 - January 2026

Booking-Containe | Full-time | Sale, Morocco

- Developed an **Angular + Java Spring Boot** dashboard with RBAC, RESTful APIs, and an integrated **n8n** workflow to automate data processing pipelines within the platform.
- Built and maintained production marketplace features using **Laravel PHP, Vue.js, Inertia.js, and FilamentPHP**.
- Translated Figma designs into scalable **Angular/TypeScript** components with REST API integration

Front-end Developer | Next.js · TypeScript · Tailwind CSS

October 2024 – December 2024

App24 | Freelance | Casablanca, Morocco

- Collaborated with the team to develop **Next.js / TypeScript** interfaces integrated with APIs and featuring a multilingual system using **i18next**

Full-stack Developer | PHP · Javascript · MySQL | <https://blogdiaa.free.nf/>

May 2024 – June 2024

Diaaland | Internship | Tanger, Morocco

- Developed from scratch a blog website with an admin dashboard, managing posts, subscriptions, and forms, using **HTML, CSS, Tailwind, JavaScript, PHP, and MySQL**

PROJECTS

Student Housing Rental Platform | <https://github.com/Muhamedall/studentnest-fullstack-project>

- Student rental platform built with **React.js / Redux** and **Tailwind CSS** : secure authentication, user profiles, favorites, ratings/comments, with a **Laravel Php** backend using middleware for access control and security.

Nostalgie E-commerce Platform | <https://github.com/Muhamedall/nostalgia-project>

- Vintage e-commerce platform built with **Next.js / TypeScript / React** and **Tailwind CSS** : dynamic filters, **Laravel / MySQL** backend for authentication and secure storage, and automated catalog generation via **Python web scraping**.

EDUCATION

HIGH-TECH , Rabat- Morocco.

September 2025 – July 2026

Bachelor's Degree in Computer Engineering
